

Northland District Health Board

Electing 7 Members

Bill BRADFORD

My principal place of residence is in the Northland District Health Board area.

I have many years' experience working in the health sector. My background includes establishing and managing not for profit GP and dental services for low income people, managing a PHO and working in public health as a media and communications officer. I have recently moved back to Northland have been disturbed at poverty related health issues and at how difficult it is for some people to get timely access to GP services due to a shortage of doctors in this area. I believe there are always solutions to issues if we try hard enough and this problem can be fixed. Community representatives on DHBs should lobby vigorously on local issues, not simply accept what bureaucracies and government decide. Local representatives should not keep quiet if services are not meeting people's needs. I promise to raise the issues you care about, to keep you informed and to be accountable.

Conflict of Interest Statement

To the best of my knowledge and belief, I have no conflicts of interest with the Northland District Health Board at the date of my notice of consent to being nominated as a candidate for membership for the board of the District Health Board, and I do not believe that any such conflicts of interest are likely to arise in the future.
