

Northland District Health Board

Electing 7 Members

Steve CAPPER

Independent

My principal place of residence is in the Northland District Health Board area. I am also standing for Okara Ward.

Building a region where health and well-being of all its people is important and needs a collaborative approach. I will advocate for forward thinking governance, and co-operation between government at both a local and national level as well as private sector and non-government organisations. Areas I want to focus on include, improving health outcomes for all people, robust planning for the growing and aging population, effective mental health initiatives, and developing wellness as part of the Northland culture. Spending will be outcome based, and linked to the needs of the community, with short-and long-term goals to be developed. I am dedicated to supporting DHB employees and ensuring they have the tools, education and information to provide the best health outcomes for our people. Developing good communication lines and a positive culture for all staff within the DHB is imperative to allow constant improvement.

Conflict of Interest Statement

To the best of my knowledge and belief, I have no conflicts of interest with the Northland District Health Board at the date of my notice of consent to being nominated as a candidate for membership for the board of the District Health Board, and I do not believe that any such conflicts of interest are likely to arise in the future.
