

## **Health equity for the new generation**

Strong, connected communities that express their rangatiratanga

Strong emphasis on population health

All people, irrespective of their ethnicity or address, have access to tier 1 essential services that are self-determined within their own localities

Equitable access and outcomes for all people in Te Tai Tokerau

Social sector and local government agencies take account of health in their planning and policy

Connected system that is simple to access, navigate and understand

Communities and whānau partner in the design of services that reflect their needs

A fulfilled and valued workforce that is reflective of our population

All providers across the sector participate in designing health policy in Te Tai Tokerau

The value of providers is acknowledged, and they are resourced appropriately

Sustainability through collective kaitiakitanga of our resources and environment
